Position Description (Duty Description): This position requires a high performing TSgt - SMSgt capable of operating in a dynamic Total Force environment and at high OPSTEMPO. Selectee will provide Air National Guard support and input directly impacting the development of the Air Force Integrated Personnel and Pay System (AFIPPS) at the component level.

Selected Airman will be assigned to the Air Force Integrated Personnel and Pay System Functional Workstream as a representative from NGB/A1Q. The incumbents responsibilities include but are not limited to: identify and analyze ANG processes, technical methods, techniques, and procedures to communicate requirements to system developers and external mission partners. Reviews and tests system processes and ensures new processes are compatible with ANG requirements. Identifies data used in Personnel processes and associated system interfaces. Reviews policy changes, related advisories and clarifies changes that may impact functional areas. Provides procedural guidance and data logic analysis. Documents Personnel system processes and develops associated training aides. Assists in data cleansing efforts. Coordinates with NGB/A1 Business Process Owners on all AFIPPS related issues and requests assistance and subject matter expertise as necessary. This position will provide support to the AFIPPS Project Management Office (PMO) and AFIPPS Functional Management Office (FMO) in the design, development, acquisition, and deployment of a seamless, paperless, automated personnel/pay system for the Air Force. The selected Airman will be required to participate in the wide variety of assignments associated with the deployment and implementation of the Integrated Personnel and Pay system at the Air Force Activities.
